Generation Workflow: Transportation File

```
psql -U postgres -h localhost -p 5432

CREATE DATABASE my_palm_transportation;

CREATE EXTENSION postgis;

\i /storage/home/<user>/data/palm/fume/source/emisproc/server/ep_create_grid.sql

\i /storage/home/<user>/data/palm/fume/source/emisproc/server/ep_intersection.sql
```
